In addition to the above Paul is also founder of **Perfecto Records** with the most notable release of the recent double album "**Perfecto Las Vegas**" which held the **#1 spot** on the US **iTunes** dance chart for several weeks.

*"We are extremely pleased that Perfecto records are taking an open approach and seek to give back to grass roots talent by connecting to other musicians outside their network. This is very forward thinking and bucks the trend of established labels closing their doors from the top down. We welcome Perfecto with open arms."* **Jon Skinner** - CEO & Founder
